

Country Netherlands

WLN is an expert in the field of water

WLN B.V. (formerly WaterLaboratorium Noord) is a 100% subsidiary of Waterbedrijf Groningen and WMD. WLN is continuously working on improving drinking water quality for both water companies. WLN is a leading organization in the field of water quality and water technology with a prominent position in the market in the north of the Netherlands.

Part of WLN is a water laboratory that specializes in water research. You can contact us for water analysis, water research but also for advice in the field of water treatment and water installations: independent, competent and practical. WLN has knowledge of all types of water: from drinking water (from source to tap), industrial water and waste water to surface water and swimming water.

About VEI

Established in 2004 by Dutch water utilities, VEI has developed into an effective organization operating worldwide. VEI implements Water Operator Partnerships (WOPs) with dozens of water operators, aiming at sharing knowledge and skills to make the partner water operators stronger, financially sustainable and more (climate) resilient. VEI creates improved access to water and sanitation services, for approximately 350,000 people every year, mostly in low-income areas in Africa, Asia and Latin-America. Standing side by side as water operators, we strive to continuously increase our impact for people living in poverty, by systemically improving the maturity of working processes of our WOP partners, supported by peer-to-peer collaboration, training, technical assistance and smart investments.

VEI is a full subsidiary of Vitens N.V. and Evides Waterbedrijf N.V. and implements the international Corporate Social Responsibility policy on behalf of seven Dutch drinking water utilities:

- Vitens N.V.
- Evides Waterbedrijf N.V.
- WML
- Waterbedrijf Groningen
- Brabant Water
- WLN
- PWN
